

Case Study

Iain | Specialist Carer

“ Luke has a great quality of life; thanks to Iain and Stefan he's never been so well. I can't tell you how grateful I am... It's made a huge difference to Luke's life... ”

Heather - Luke's Mum

Iain joined Superior Care in 2011 and brought with him more than 25 years experience of managing residential care services and supporting people with learning disabilities.

When he joined Superior Care, Iain made a conscious decision that he would prefer to focus his efforts by working on a 1:1 basis and, since joining our team, Iain has worked exclusively with Luke; a young adult who, despite suffering complex healthcare conditions, is able to continue to live in his family home with the support of his care team.

Iain says that he finds his role “really rewarding” because, as well as enjoying the work that he does, he feels that it has positive outcomes for Luke. Since supporting Luke, Iain and Stefan, the second member of Luke's care team, have taken Luke on holidays at the Calvert Trust and they even visited the Paralympics! Luke and his team can regularly be found “hanging out” at Madame Tussauds or on the London Eye.

Commenting on working for Superior Care, Iain says “I get on with the local branch really well; they're always there when I need them. I find the office really efficient, I get paid on time, and the rates are really good.”, “I'd have no hesitation in recommending Superior Care to my colleagues or my friends”.
